The Geological Society
Accredited degree courses

B.Sc. PROJECT

Course Name	Course ID	Prerequisites
B.Sc. PROJECT	EGP499	EGP 399, EGP 408

Course Description

1-This is a multidisciplinary design course that integrates fundamentals and design concepts in geological, geophysical exploration.

2-Students work in integrated teams consisting of students from each of the disciplines. Multiple open-end design problems in geophysical exploration and field development, including the development of a prospect in an exploration play and a detailed field survey, are assigned.

3-Several detailed written and oral presentations are made throughout the semester.

4-21 days field trip.

Course Objectives

To make the student familiar with the different steps of conducting the exploration projects, Planning and conducting and to reach of the results

Course Outcome

1. Student can be familiar with the different steps of conducting the exploration projects, Planning and conducting and to reach of the results.
